everybody was more than satisfied with the day's sport.

The first race was called at about 10:30 a.

m. There were five entries, Oregon Buck.
Bay Jim, Sorrel John, Gold Dust and Sorrel Trix. This was a haif-mile running race, best two in three. The horses could not or would not score, and when the go was finally given two of the animals faced the wrong way. There was so much trouble in scoring in this race and wrangling afterwards, that it was noon before another race could be called.

Promptly at 1 o'clock the judges were in the stand, and soon afterwards the 600 yards single dash pony race was started, with three entries, Bay Billy, Blue Dick and Little Chief. Bay Billy won by nearly a length, Blue Dick second.

The 100 yard foot race was easily won by Ransberry. The result, however, surprised nobody, as Ransberry is considered here the best sprinter in the territory, and only one man ran against him, whom it was known he could defeat.

There was entered in the trotting race, the next on the programme, Cottonwood Chief, owned by Chas Blakely, of Bozeman, Stormy, a Deer Lodge horse, and Bay Billy, entered by John Vall to fill. The race was one mile heats, best two in three. Cottonwood Chief took the first and second heats and the race, Stormy second, and Bay Billy distanced in the first heat.

Noble Says there is No Danger of the Territory Being Robbed.

IDAHO LAND SHARKS.

WASHINGTON, Aug. 3.-Secretary Noble has received a telegram from Gov. Shoup, of Idaho, setting forth the resolution passed by the constitutional convention stating that speculators are following the United States irrigation surveying parties, taking up valuable water rights. In reply Secretary Noble quotes the provisions of the law providing for the survey now in progress, which, he thinks, covers the grounds and protects all rights. Among other things, this law provides, "and all lands which may hereafter be designated or selected by full solution of the whole trouble between full solution of the whole trouble between the territories of Idaho and Utah, and parties entering upon these lands in either territory will be subjected to the superior will and further control of the United States. I directed the commissioner of the land office to notify the local officers of this law and prohibit entries of the kind you specify, and I have also ordered the superintendent of the geological survey to proceed rapidly with the survey on Bear river. The statute, you observe, reserves these lands from the date thereof and the assistant attorney general of this department agrees with me that it is constitutional and effective to the extent expressed. I fully appreciate the conflict of rights that must arise between the territories and states, but these all can and will be better regulated by national control than local conflicts and contradictory legislation. the territories of Idaho and Utah, and par-

### MYSTERIOUS EXPLOSION.

An Express Messenger Killed on the Grand Trunk Railway.

MONTREAL, Aug. 3.-When the train for Quebec on the Grand Trunk railway passed St. Lamberts, after going through Victoria bridge last night, an explosion occurred in the express car by which a messenger named Rogers was killed, the car completely wrecked and the express matter destroyed. Rumors are afloat that it was an attempt to blow out Victoria bridge.

The train was on its way to Quebec, Portland and Halifax and consisted of seven passenger coaches, a Pullman car, sleeping car, smoking, baggage and express It is said a foot race has been arranged for \$50 a side, to take place one week from to day, between Ransberry and an unknown, to be furnished by a Gardiner saloon man. ### TANNER'S STATEMENT. How the Special Cases Were Divided

Among the Attorneys. WASHINGTON, Aug. 3 .- Commissioner of Pensions Tanner has made a public statement of the number of cases made "special" from the date he assumed charge of the pension office, March 27, up to July 23. It shows that during that period there were made special 958 claims; of this number the commissioner had 952 drawn from the files and examined to ascertain who were the attorneys in the cases. The result shows, among other things, that there were 118 cases in which there was no attorney; that George F. Lemon was the attorney in 98 cases and William W. Dudley in five. The commissioner then names eleven other attorneys who had cases made special, ranging from twenty-six down to eight. The above aggregate 385 cases. The balance of the cases, the commissioner says, were districted among various other attorneys, no one of whom is the attorney in as many as eight cases. Three hundred and saveleen attorneys were represented.

LIVERPOOL, Aug. 3 .- In the trial of Mrs. Maybrick, Dr. Stevenson, one of the physicians who attended Mrs. Maybrick, assert-

ed that all of the patient's symptoms indicated he was suffering from arsenical poisoning. The nurse testified when Mrs. Maybrick tried to persuade her husband to Maybrick tried to persuade her husband to take medicine he objected, saying it was the wrong medicine. No improper food or medicine was given to the patient while she was in the house. Mrs. Maybrick ap-peared to be tender and considerate of her nusband. A waiter at Flattman's hotel identified the prisoner as the woman who occupied a bedroom in the hotel with the man Brierly.

After the introduction of this testimony the prosecution announced its case closed and Sir Charles Russell opened for the de-

fense.

A witness named Baleson, who lived with Maybrick in America from 1877 to 1881, Mariner Thompson and a negro who was Maybrick's former servant, all testified that the deceased took arsenic habitually. Prof. Tidy testified the symptoms manifested by Maybrick were not typical arsenical poisoning, but the appearance of the organs was consistent with the theory that death resulted from gastritis. that death resulted from gastritis.

## FEARLESS MURAT.

The Cincinnati Editor Accorded an Enthusiastic Reception by His Political Friends.

The Rejected Nominee in the Race for the Senatorship Now Held

Foraker Talks, Claiming all the Good Laws Were Enacted by the Republicans During His Term.

CINCINNATI, Aug. 3 .- A reception to Hon. Murat Halstead upon his return from Europe was given to-night by the republican clubs of Hamilton county in Music hall. The great hall was elaborately deco rated and there was a vast crowd present. A wild scene of waving hats and handkerchiefs followed the entrance of Mayor Mosby, escorting Mr. Halstead, which was repeated a few minutes later on the appearance of Goy. Foraker. When all the clubs had been seated Mayor Mosby made a welcoming address, containing allusions to the coming address, containing alusions to the honored guest, his fearlessness as a journalist, and the suggestion of the usefulness of such a quality in the senate of the United States. When Mr. Halstead rose to reply he had the most flattering reception, which continued several minutes.

After expressing his surprise and gratification at the reception accorded him, Mr. Halstead said: "Concerning the action of the senate in my case, which his honor has

cation at the reception accorded him, Mr.
Halstead said: "Concerning the action of
the senate in my case, which his honor has
referred to, I have no grievances. The
action of the senate was, so far as the
republicans opposed me, largely owing to
misapprehensions which I was unable at
the time to correct. There was also evidence in some cases of personal feeling
that did not do me justice. But however
intended on the part of those who rejected
me, I cheerfully and sincerely recognize the
fact that they did me a kindness. I have
been abread on my own hook and have
accomplished the mission most important to
myself—the restoration of my health.
The president had no difficulty in finding
a suitable man for the place in Hon. Wm.
Walter Phelps, a gentleman admirably
qualified to discharge the duties of that office. Touching the inquiry as to whether
I am a candidate for the United States senate, I do not wish to have that urged upon fice. Touching the inquiry as to whether I am a candidate for the United States senate, I do not wish to have that urged upon the people. That is a matter for consideration after the republican victory, which I confidently expect in November by the the triumphant re-election of Gov. Foraker and the election of a republican general assembly. When this republican legislature is elected, if the republicans in it shall think I would be a good representative man, that in their good judgment it would be a good thing to elect me senator of the United States, I should regard it as a great honor and attempt to perform the duties of the office to the best of my ability. But the object to be aimed at, however, and which cannot be too clearly and strongly stated, is not any individual triumph, but to make sure that Ohio should be hereafter represented in the United States senate by two republicans. No personal ambition should be permitted to interfere with that object. The more I have become acquainted with the people and affairs of other nations, the higher has been my appreciation of the conditions of life in our country, where, however diverse may be the fortunes of the people, their opportunities are far greater than in any foreign country. Speaking for myself, while understanding that we have no occasion to be

derstanding that we have no occasion to be sorry for the Germans. French or English who occupy some of the most favored portions of the globe, and have attained a splendid civilization, I must say I have an unfeigned preference both for the climate and diet of the United States of America."

The address was lightened to with interand diet of the United States of America."
The address was listened to with interest, and frequently applauded.
W. H. Parham, on behalf of the colored people of Ohio, made a brief address, extolling Mr. Haistead, and Mr. Jacoby followed with a welcoming speech on behalf of the president. Gov. Foraker, in his address, said his duty was an unnecessary one. He was to welcome Mr. Halstead on behalf of the republicans of Ohio, but Mr. Halstead knew he was welcomed tion when Halstead's sturdy service was needed to assist in battling out the most foul taint of legislative action—the corrupt foul taint of legislative action—the corrupt election of Henry B. Payne to the senate. Drifting into political matters, the governor spoke of the marked reform in the election law of Ohio in the past four years and also in the police force, both of which he claimed as the result of republican legislation. In conclusion he touched upon the recent manifestations of lawlessness on the part of certain people in Cincinnati, and repeated his assertion, made in his recent letter to Mayor Mosby, that obedience to the law is the first duty of citizenship. Referring to the warning that in taking this ferring to the warning that in taking this ground he would offend the German voter, he said he had no fear of that. He knew

the German citizen to be true and patriotic and a lover of justice. Throughout his address the assembly gave liberal applause, which was especially marked in his eulogy of Mr. Halstead and his declaration in favor of the support of the law. National Capital Notes. WASHINGTON, Aug. 3.-The president has tendered the appointment of collector

of the port of New Orleans to ex-Gov. Warmouth, of Louisiana. F. Augustus Harsh, of Oregon, has been appointed special examiner in the pension

office.

Secretary Tracy has received a report from Commander Chadwich, who accompanied the Yorktown under orders of the navy department at the recent two days' trial at sea, in which he says: "The ship showed herself an admirable sea boat and a remarkably steady gun platform. She steamed well into a head sea, taking scarcely any water on board. She rolled easily. The extreme rolls were twenty deeasily. The extreme rolls were twenty de-grees leeward and eighteen degrees to windward. Her windward rolls were generally from two to five degrees less than leeward."

The following presidential postmasters have been appointed: Henry K. Krass, at Reno, Nev., vice J. C. Hageman, removed; Robert Dunn, at North Yakima, W. T., G. W. Carr, resigned; Thos. B. Warren, at Spokane Falls, vice J. J. L. Peele, resigned.

### THE CANADIAN ROADS. Chairman Walker in Favor of Their Regu-

CHICAGO, Aug. 3 .- A special from Wash-

ington says Chairman Walker, of the Interstate Railway association, in reply to a letter from Senator Cullum asking his views on railway relations with Canada, has written saying in substance the Canadian lines operating in the United States affect the commercial or business interests of certain parts of the country favorably, especially in New England and other sections along the border. They affect business interests in other parts of the country to some extent unfavorably. Judge Walker thinks the Grand Trunk and Canada Southern railways have been large factors in the development of Chicago, and that the competition of the Grand Trunk has materially aided in bringing about the long distance rates of the last year between the western and northwestern states and the eastern seaboard. Whether the result obtained through the entire country has on the whole been more favorable than otherwise while declined to say. It was hardly worth while to speculate on. "In fact," says the letter, "it hardly seems worth while to ad-just the balance. The Canadian roads are in existence; commercial conditions have become firmly settled in their use and they are rapidly working their way in other diare rapidly working their way in other di-rections. It is obvious that their relations to interstate commerce in the United States can by no possibility be entirely eradi-

In discussing the question whether traffic carried from point to point in the United States belongs naturally to the Canadian lines, the letter states that some of the Canadian lines are geographically perfectly natural routes, but that if the Canadian lines were not available for service, it would be practicable for traffic to be carried wholly within the United States ried wholly within the United States. Judge Walker considers the many propositions which have been made at length, especially regarding the long and short haul clause, and closes: "It apparently would not be unjust for our government to require from the Canadian inca which are require from the Canadian lines which are employed in conducting commerce be-tween the different states of the union an engagement with the United States government in some effective form and, if necessary, under the sanction of a treaty providing that the entire traffic of the roads composing the several routes so used shall be conducted in accordance with all the provisions of the act to regulate commerce, adding suitable arrangements for the service of process and the enforcement and collection of penaities. In other words, all that is required would seem to be some provision which should put the Canadian roads upon an equal footing with our own."

Canadian Cars not Dutiable. WASHINGTON, Aug. 3 .- The secretary of the treasury this afternoon rendered a decision on the question submitted by the collector of customs at Detroit as to the dutiable character of foreign built railway on and attempt to perform the duties of the office to the best of my ability. But the object to be aimed at, however, and which cannot be too clearly and strongly stated, is not any individual triamph, but to make sure that Ohio should be hereafter represented in the United States senate by two republicans. No personal ambition should be permitted to interfere with that object. The more I have become acquainted with the people and affairs of other nations, the higher has been my appreciation of the conditions of life in our country, where, however diverse may be the fortunes of the people, their opportunities are far greater than in any foreign country. Speaking for myself, while understanding that we have no occasion to be cars coming into the United States from portation of foreign built cars into domestic traffic.

The governor went on to tell of the high regard the people had for his courage and honesty, for the purity and simplicity of his life, his intelligent patriotism and his complete and entire republicanism. Not Much Damage in the Park. MAMMOTH HOT SPRINGS, Wyo., Aug. 3. -Reports of terrible danger and great loss from forest fires in the Yellowstone National park are so much exaggerated as to be almost wholly unfounded. There have been and are yet some fires, but the soldiers have worked hard and successfully to overcome them. The only fires near any roads or buildings have been kept under control, and are not spreading. On the east side of the lake, where there is no road or building, the fire is still burning. There is no danger to the tourists scattered over the park. The people never have been troubled over possible harm, but have kept on steadily building the hotels at Grand Canyon and Lake Washington.

Bad Weather for William London, August 3.-Emperor William was to have reviewed the British fleet at Spithead to-day, but the review has been postponed until Monday on account of the heavy storm. A steady rain fell all day and the haze was so thick the fleet could not be seen from the shore. It is a holi-day on the stock exchange and Monday will also be a holiday.

South Dakota Convention Concludes Its Labors and Will Adjourn To-morrow.

Washington Debating the Uses of a Rails road Commission-Some Candidates for State Offices.

BISMARCK, Aug. 3.-At last evening's session of the convention it was decided the salary of members of the legislature shall be \$5 per day and the length of the session sixty days. At to-day's session the preamble and bill of rights were discussed at length. Bartlett, of Griggs, wanted to strike out that part of the preamble referring to God, claiming it was wholly unnecessary, and when considered in comparison with the conduct of scheming conventions and legislatures an inconsistency. His amendment, however, was rejected and the preamble of the Williams constitution subpreamble of the Williams constitution substituted as follows: "We, the people of North Dakota, grateful to Almighty God for religious and civil liberty, do establish and ordain this constitution." The article prohibiting railroad companies or other corporations from keeping blacklists of employes for the purpose of preventing their securing employment, was accepted.

SIOUX FALLS, Dak., Aug. 3 .- The South Dakota constitutional convention practically closed its labors to-day, though final adjournment will not be taken until Monday. During its last hours the convention has passed upon some of the most important matters brought before the body. The proposed amendment to the schedule shortening the term of state officers to be elected in October, thereby making the elections for state and county officers coinelections for state and county officers coincident, which was defeated yesterday, was reconsidered and adopted to-day. State and county officers will therefore be elected in November, 1890, and South Dakota has been delivered from annual elections. The most important feature of the work to-day was the consideration of state and municipal indebtedness. By the constitution of 1887 the limit of state indebtedness was fixed at \$50,000. An amendment was offered fixing the limit at \$100,000, which was adopted.

**Business and Politics** OLYMPIA. W. T., Aug. 3 .- The conven-

BUTTE FIRST, THEN HELENA.

Residents of the Silver City to Have a Mass Meeting on the Capital Quest

BUTTE, Aug 3 .- [Special to the Independent.]-The feeling in regard to the lack of effort on the part of the Silver Bow delegates to get the capital to Butte, at least temporarily, has been growing here for the last few days. This evening the Inter Mountain contained an interview with fifty prominent citizens, in which they expressed strongly their preference for Butte, but a very large number of them preferred Helena if Butte cannot secure the honor. This evening a number of leading citizens got up a call for a mass meeting to be held Monday evening at the court house. This call was signed by 200 business men, and will be published tomorrow morning. It is becoming quite evident that Butte is in the field for the capital, at least in the opinion of her own

A Horse Mart for Miles City. MILES CITY, Aug. 3 .- [Special to the Independent.]-To-day at an adjourned citizens' meeting looking toward the establishment of a horse sales, race and fair association at Miles City, it was agreed that informal stock subscription books should be opened and placed in the hands of a committee [of three to see that the requisite \$10,000 is raised, after which the incorporation will be perfected. The loca horsemen are greatly in favor of the plan as buyers will then come to the producers instead of the horsegrowers going east to look for purchasers.

MISSOULA, Aug. 3 .- [Special to the Independent.]-The crown sheet of engine No. 8 blew out this morning one mile east of Arlee. Fireman L. S. Tuttle was blown from the cab a distance of several feet and sustained severe injuries about the head. He was also badly scalded and his recovery is doubtful. He was brought to the railroad hospital at this point for treatment. The freight trains, which have been delayed by the burning of the bridge just west of Missoula, are again moving.
